

Dedicated to the study of birds in Ontario

Ontario Field Ornithologists (OFO) was formed in 1982 to unify field ornithologists (birders) across the province and to provide a forum for the exchange of ideas and information among its members. OFO is one of the five partner organizations sponsoring the third Ontario Breeding Bird Atlas.

Publications

OFO News and *Ontario Birds* are each published three times a year and are included with your membership. *Ontario Birds* features current articles by amateur and professional ornithologists about the status, distribution, identification and behaviour of Ontario's birds and includes the Annual Report of the Ontario Bird Records Committee.

Illustrated with excellent colour photos, *OFO News* features short articles about birds and bird identification, site guides, a bird quiz and book reviews.

Field Trips

Field trips with expert leaders to the best birding spots in Ontario will sharpen your field identification skills. For both novice and experienced birders. OFO members abide by the OFO Code of Conduct. <http://www.ofo.ca/site/content/code-of-conduct>

OFO's Annual Convention

Held each fall at unique birding locations across the province. Features guest speakers and a wide selection of field trips.

Ontario Bird Records Committee (OBRC)

This committee maintains the official Ontario Bird Checklist and publishes a Review List of Species.

OFO Young Birders

Trips and events designed to help young birders develop field skills and meet other young birders.

Ontario Field Ornithologists
